

جدول يوضح موضوعات الأبحاث المطلوبة لطلاب كلية التمريض الفرقة الثالثة بديلا عن امتحانات الفصل الدراسي الثاني للعام الجامعي ٢٠١٩-٢٠٢٠

قواعد اعداد البحث:

- ١- الخط ١٤ ..... العناوين ١٦ ..... نوع الخط Times New Roman.....
- ٢- المسافة بين الاسطر ١.٥
- ٣- الهومش من جميع الاتجاهات ٢.٥
- ٤- لا تقل عد اوراق البحث عن ٣ ورقات ولا تزيد عن ١٠ ورقات وذلك بخلاف صفحة العنوان وبيانات الطالب ورقم جلوسه ان وجد.
- ٥- يمكن الاستعانة بكتاب القسم وكتب مكتبة الكلية بالاضافة الي النت
- ٦- يصاغ البحث بطريقة بحثية ..... مثلا العنوان ..... المقدمة ..... الموضوع ..... ثم المراجع.
- ٧- لا يزيد حجم البحث عن ٥ ميجا بايت
- ٨- يحول البحث الي صيغة ال( بي دي اف) بعد الانتهاء من كتابته وتنسيقه.
- ٩- يقوم الطالب باعداد البحث منفردا ( وليس فى مجموعة)
- ١٠- الالتزام بعدد الصفحات او اى شروط اخرى اذا كانت محددة من قبل استاذ المادة امام السؤال او امام موضوعات الابحاث
- ١١- يكتب بحث واحد في اي من الموضوعات التالية لكل مقرر:

موضوعات الأبحاث الخاصة بالفرقة الثالثة	
المادة	موضوع البحث
لغة انجليزية	<p><b><u>Read and answer the questions</u></b></p> <p>It lies 395 km south of Suez, and is noted for its magnificent summer and winter climate. The clarity of its water made it a center of tourist attraction especially for divers and practicing water sports because of the worldwide fame of its coral reefs and rare marine life it enjoys. Visitors can watch the exquisite underwater marine life through well-equipped glass bottom submarines.</p> <p>Hurghada has a large number of hotels and tourist resorts of different</p>

categories, as well as well-equipped diving centers offering facilities for aquatic sports.

- a. Where does Hurghada lie?
- b. made it a center of tourist attraction?
- c. How can visitors watch the underwater marine life?
- d. What do diving centers offer?
- e. Does it have a good climate in summer and winter?

### **Translate into Arabic**

Mary Williams was a clever young lady. She lived alone and had a very important business job in a big company. She worked very hard in it. She was never absent, she always arrived at her office early and left late , and she often took reports home with her to read. At weekends she seldom went anywhere, and she was always working then too.

Jill Thomas was a friend of Mary's. In fact, she was Mary's best friend. They had gone to the same school, and both of them were clever women, but Jill was married, and she did not want to get a job. " I am quite happy at home with Len," she always said " I do not want to be too busy to have fun."

Jill and Len liked walking very much, and nearly every weekend they went to the mountains and walked there. They also liked dancing very much, and they often went in the evening and danced till the early hours of the next morning. And when they had their holidays, they climbed all the mountains one by one and swam and sailed on a lake and danced nearly all the time.

One year Jill said to Mary, " Would you like to have a holiday with us this year, Mary?" Mary was very happy, Jill and Mary and Len had two weeks together. Mary enjoyed her holiday, but she was very tired after they had climbed all the mountains and swum every day and danced every night.

The next summer, Jill offered to take Mary on their holiday again.

“Thank you very much,” answered Mary, but I am going to be honest with you: I am sorry that I can’t come, because I’ve worked a lot this year and I am tired. But I do not need a holiday: I need a rest”

### ترجم إلى الانجليزية

يدرس علم النفس السلوك و العمليات الذهنية. يدون علماء النفس تصرفات الناس و الحيوانات بعضهم تجاه بعض و تجاه البيئة. كذلك يبحثون عن انماط تساعد على تفهم السلوك و يستخدمون اساليب علمية لاختبار صحة افكارهم. و قد وجدوا بفضل هذه الدراسات اشياء كثيرة من شأنها مساعدة الناس على تحقيق امكاناتهم و زيادة التفاهم بين الافراد و الجماعات و بين البلدان و الثقافات.

### Grammar

<p>عزیزی الطالب من خلال دراستك لمقرر تمریض الاطفال اختر احد الموضوعات التالية ثم اكتب فيه مقالة بحثية عن:</p> <p><b>1-A high risk neonate is</b> a neonate exposed to any condition that makes his life in danger, in the light of this sentence write and discuss from five to seven pages about</p> <ul style="list-style-type: none"> <li>• Identify predisposing factors for high risk neonates</li> <li>• Common Problems of high risk neonates</li> </ul> <p><b>2- Infant is the period from one month to 12 months of age, is a time of many changes: In the light of this sentence; write 6 pages about the following:</b></p> <p>A- Calculate normal weight, length and number of primary teeth during of 9 month aged infant.</p> <p>B- Psychosocial development of infant.</p> <p>C- Needs of infant.</p> <p>D- Health problems of infant.</p> <p><b>3- Growth and development is a continuous process: In the light of this sentence; write four pages about the following:</b></p>	<p>٢- تمریض الاطفال</p>

A- Factors affecting growth and development.

B- The principles of growth and development.

C- Stages of Development.

D- Types of growth.

**4- Hassan is 11 years old. He was admitted to pediatric care department, was complaining from polydipsia, polyphagia, frequent urination, weight loss, random blood glucose 210 mg/dl and fasting blood glucose 144 mg/dl**

- What is Hassan's medical diagnosis?
- Illustrate possible acute and chronic complications?
- Discuss nursing management of Hassan?
- What is Hassan's age group?
- Mention effect of chronic illness on Hassan according to age group?

**5- Protein- energy malnutrition (PEM) has been identified by the world health organization (WHO) as the most lethal form of malnutrition, annual deaths at least 5 million of children worldwide.**

- Define malnutrition
- Differentiate between KWO and marasmus.
- Summarize complication of PEM
- Enumerate treatment of PEM.
- Explain prevention of PEM.
- Explain nursing interventions for PEM.

6- Iron deficiency anemia is most common nutritional deficiency disorder and remains a formidable health challenge. Girls in the period of later school age and early adolescence are prone to develop iron deficiency. Iron deficiency leads to many non-hematological disturbances which include growth and development, depressed immune function in infants; reduces physical work capacity; decreases the cognitive function in both infants and adolescents.

### Question

- 1- What general characteristics of school age
- 2- What general characteristics of adolescent stage.
- 3- What the definition and causes of Iron deficiency anemia
- 4- Nursing management of Iron deficiency anemia

7-Nursing Management of children with Acute Post Streptococcal glomerulonephritis. An acute inflammation of renal glomerular paranchyma due to deposition of immune complexes characterized by sudden onset of oliguria, hematuria, hypertension and edema

### Question:-

- 1- Explain incidence of urinary disorders
- 2- Recognize etiology of common urinary disorders
- 3- Summarize the child problem when he has disorders
- 4- Design the nursing care plan to child with urinary disorders.
- 5- Plan and apply nursing consideration for of children in Acute Post Streptococcal glomerulonephritis
- 6- Discuss the sign &symptom of Acute Post Streptococcal

glomerulonephritis	
<p><b>1-There are many data collection methods</b>, in the light of this sentence write and discuss in five pages what these methods are?</p> <p><b>2- Sampling is the process of selecting units from a population of interest: In the light of this sentence;</b> write in four pages about the types of probability (random) and non-probability samples.</p> <p><b>3- Therapeutic effect</b> of honey in wound healing.</p> <p><b>4- Effect of rheumatic fever on the physical growth of children.</b> In the light of this sentence; write 3 pages about the topic.</p> <p><b>5- Relation between mother weight and neonate.</b> In the light of this sentence; write 3 pages about the topic.</p>	<p>٣- طرق البحث</p>
<p>- الالتزام بتضمن البحث مقدمة، واهداف، ومحتوى، وخلاصة، ومراجع لا تقل عن عشرة تثبت في قائمة المراجع، ويشار اليها في متن البحث محددة بصفحاتها عند الاقتباس منها.</p> <p>- يستوفي البحث شقيه النظري والتطبيقي الموضحان في عناوين الابحاث.</p> <p><u>عناوين الابحاث كالتالى:</u></p> <p>١ - طرق دراسة النمو، متضمنا عرض <u>نظري</u> للطرق والمناهج، ونموذج <u>تطبيقي</u> لدراسة حالة <u>لطفل دون المراهقة</u> متضمنا البيانات العامة، والمميزة، والمشكلة، والتقييم العام للحالة، والاقتراحات المبدئية.</p> <p>٢ _ طرق دراسة النمو، متضمنا عرض <u>نظري</u> للطرق والمناهج، ونموذج <u>تطبيقي</u></p>	

#### ٤- علم نفس نمو الطفل

لدراسة الحالة لمراهق متضمننا البيانات العامة، والمميزة، والمشكلة، والتقييم العام للحالة، والاقتراحات المبدئية.

٣ - العوامل المؤثرة على النمو، متضمننا عرض نظري للعوامل، ونشاط تطبيقي من خلال تصميم مطوية توعوية تقدم للأسرة أو للسيدة الحامل للتعريف بأهم هذه العوامل إيجابا وسلبا على النمو.

٤ - مراحل نمو الجنين، متضمننا عرض نظري للمراحل، ونشاط تطبيقي من خلال عرض مصور متسلسل لهذه المراحل، أو فيلم فيديو لتطورها.

٥ - خصائص نمو طفل المهد، متضمننا عرض نظري لهذه الخصائص، وبعض التطبيقات لدورك كمررض تجاه هذه الخصائص عند التعامل مع مريض طفل المهد.

٦ - خصائص نمو طفل الطفولة المبكرة، متضمننا عرض نظري لهذه الخصائص، وبعض التطبيقات لدورك كمررض تجاه هذه الخصائص عند التعامل مع مريض طفل الطفولة المبكرة.

٧ - خصائص النمو الاجتماعي للمراهق، متضمننا عرض نظري لهذه الخصائص، وبعض التطبيقات لدورك كمررض تجاه هذه الخصائص عند التعامل مع مريض مراهق.

٨ - خصائص النمو الانفعالي للمراهق، متضمننا عرض نظري لهذه الخصائص، وبعض التطبيقات لدورك كمررض تجاه هذه الخصائص عند التعامل مع مريض مراهق.

٩ - مشكلات الطفولة، متضمننا عرض نظري لأهم مشكلات مظهر واحد فقط من مظاهر النمو ( الجسمي أو المعرفي أو اللغوي أو .....إلى آخره)، ودراسة تطبيقية لإحدى

<p><u>المشكلات</u> باستخدام <u>اختبار</u> نفسي وتفسير نتائجه، أو <u>الملاحظة</u> المقننة وتوضيح عدد مرات تكرار حدوث السلوك المشكل، وتواريخ اجراء الملاحظة، واهم المشاهدات، والتفسير العام في ضوء المشاهدات، أو <u>المقابلة</u> المقننة وتوضيح بنود المقابلة، والشخص الذي اجريت معه، والتفسير العام في ضوء معطيات المقابلة.</p> <p>١٠ - مشكلات <u>المراقبة</u>، متضمنا عرض <u>نظري</u> لأهم مشكلات <u>مظهر واحد فقط</u> من مظاهر النمو (الجسمي أو المعرفي أو اللغوي أو .....إلى آخره)، ودراسة <u>تطبيقية لإحدى المشكلات</u> باستخدام <u>اختبار</u> نفسي وتفسير نتائجه، أو <u>الملاحظة</u> المقننة وتوضيح عدد مرات تكرار حدوث السلوك المشكل، وتواريخ اجراء الملاحظة، واهم المشاهدات، والتفسير العام في ضوء المشاهدات، أو <u>المقابلة</u> المقننة وتوضيح بنود المقابلة، والشخص الذي اجريت معه، والتفسير العام في ضوء معطيات المقابلة.</p>	
<p>Dear third year students the following is the required students' review articles for passing the introduction of nursing administration course 2020. Please every student chooses one of the following to write within 10 pages includes introduction and references:</p> <ol style="list-style-type: none"> <li>1. <b>Title "<i>Management and Adminstration</i>"</b>: Management is required in all kinds of organizations; it consists of series of interrelated functions that are performed by all managers. <ul style="list-style-type: none"> <li>- Write in detail in management and administration.</li> <li>- Give an example of each managerial skill.</li> <li>- Clarify the importance of management in nursing.</li> </ul> </li> <li>2. <b>Title "<i>Planning</i>"</b>: Planning is a basic function of management is a principal duty of all managers. It is a systematic process and requires knowledgeable activity based on sound managerial</li> </ol>	<p><b>introduction -٥ of nursing administration</b></p>

theory.

- Write in detail in planning.
- Clarify how you can benefit from planning in your life
- Set your future plan

3. **Title "*Planing Tools*"**: Planning tools according to many authors are types of plans; these plans form a hierarchy, with the plans at the top influencing all the plans that follow. Although they are parts of planning.

- Write in detail in planning tools.
- Clarify how can the obligations to planning tools in nursing practice affects the staff, departmental and organizational success. Give an example of each one of them.

4. **Title "*Standard and Budget*"**: Nurses must determine whether the services they render are of high quality, positively affect health outcomes and minimize costs. Standards are the foundation upon which all other measures of quality assurance are based. In the same line declining reimbursement and financial incentives connected to quality, so setting budget must be annually done.

- Write in detail in standard and give an example for each type.
- Write in detail in budget and give an example for each type.
- Clarify how budget as a standard can improve quality.

5. **Title "*Organizing*"**: Organizing as a managerial function involves establishing a formal structure that provides the best possible coordination of resources to accomplish unit objectives.

- Write in detail in organizing.
- Which type of span of control you will use when you have a staff with low experience? Why?
